

Pressure Calibrator with Integral Electric Pump

The BetaGauge 330 hand held pressure calibrator is a small lightweight calibration device that generates pressures up to 150 PSIG using a high performance integrated electric pump. Also internal manual pump version up to 300 PSI.

Reference Class Gauge

- PI Reference Class Digital Pressure Gauge with RS232 Port and Internal Temperature Sensor.
- Temperature Compensated Accuracy over 0 to 50°C
- Accuracy of $\pm 0.04\%$ of Reading $\pm 0.01\%$ Full Scale
- Optional Calibration Kit with Pressure Pump and Fittings Available

Calibration Connection Tools

Calibration Connection Tools for Fast Turnaround Times

Benefit from an improved process and quality at reduced costs. Eliminate sealants, thread damage and wrench tightening to transmitters, control valves, transducers, pressure gauges, compression fittings and conduit with FasTest connection tools.

CALIBRATE 5X FASTER

Black Body Calibrator

These dual zone Black Body calibrators are designed to quickly and easily calibrate infrared thermometers with a low and high calibration point. DBB calibrators allow you to preset the required temperatures and validate your IR thermometers.

Documenting Calibrator

DMC-1400 Documenting Multifunction Calibrator

Maintain Calibration data for 50 instruments in non-volatile memory. Print Calibration Certificates without a PC!

Humidity Calibrator

The Model 2000 Humidity Calibrator will generate chamber conditions for accurate and repeatable calibration of instruments, probes, recorders and data loggers quickly and accurately.

Bench Calibrator

3001 Process Lab Standard provides voltage, current, thermocouple, rtd and pressure channel with a second isolated measurement channel for a single laboratory calibration instrument. Accuracy of 0.0025%

3000SERIES

TRANSPORTABLE CALIBRATOR

- TRANSPORTABLE, RUGGED DESIGN
- AC / DC VOLTAGE TO 1000V
- AC / DC CURRENT TO 20A
- DRY BLOCK TEMPERATURE OPTION TO 300°C AMBIENT
- PRESSURE CALIBRATION MODULE OPTIONS
- DIMENSIONAL OPTION FOR MICROMETER CALIBRATION

THE VERSATILE SOLUTION
THE DEDICATED ON-SITE / MULTI SITE SOLUTION

Calibration Software Training Programs

Proven Calibration Management Software designed to ensure compliance, enhance productivity and increase return on investment.

These CD-ROM (Computer-based) training for precision measurement, calibration and metrology courses offer a wide variety of subjects

HART COMMUNICATION FOUNDATION

HART Communication

ProComSol, Ltd is a leader in design and manufacture of advanced, low cost, and high quality HART communication products for the Process Control marketplace. Their product offering includes HART Modems and application software that provide complete monitoring and configuration of your HART instruments.
